Mr. Potter, the new American minis-ter, has leased the Antici Matter palace for his occupation during his term of arrice. It is a notably beautiful structure, blending ancient and modern art. Mr. Potter had an interview with Sig. Brin, the minister of foreign affairs, before being received by King Humbert. Sig. Brin took occasion to congratulate Mr. Potter on the felicitous relations between Italy and America and the happy settlement of all difficulties that had formerly existed. The subject of immigration restrictions was not touched, the interview being of a formal and introductory character, but it is re-ported that the Italian government is extremely concerned about the meas-ures already taken and contemplated in regard to the restrictions upon im migration to America. Although not openly avowed, it is understood that this solicitude is largely, if not chiefly, of a financial character, as Italy receives a very large inflow of money from the emigrants in America and a stoppage of the traffic would have a seriously appreciable effect. Thousands of Italians who have become affluent in America have returned to
